Rick and Cassie,

At this point, I feel strongly that we need clarity in writing from a doctor regarding [REDACTED] medical situation as described below. Getting on the same page will start with us having the information available to release the medical leave with or without accommodations or limitations. It is best that our correspondence remains in writing, and I ask that your messages be directly communicated with me or with Miryah Walters.

The O'Neal School has been cooperative in helping your family and law enforcement in this situation. It is important that your public discussions of the matter do not create a situation that makes it impossible for your family to maintain a positive and constructive relationship with O'Neal.

Thank you.

John

John,

We appreciate the prompt response.

I believe the last time we spoke about [REDACTED] medical situation was over a month ago. At this point we feel it would be beneficial for us to talk and give you an update so we can all get on the same page. Would you be available for a call (or meeting) today or tomorrow?

Thank you.

Rick and Cassie Stefanik

[REDACTED]

Please provide the release from 4 weeks ago to swim on a regular basis. How can they explain how the release to swim is different from the most recent medical note?

For [REDACTED] to return to swimming and complete the academic year, we will require something directly from the physician indicating that he is cleared for some, or all, activity and any accommodations required, if any. His medical leave began in late April, and due to the length of the leave, we must be sure that the seriousness has been addressed, and we require complete clarity.

Thank you.

John

John and Miryah,

Please see the attached medical release from Sandhills Pediatrics allowing [REDACTED] to return to school as well as participate in the swim program. As we have asked before, when will he be able to come into school to complete his tests and quizzes required to finish out 6th grade? Also, when can we clean out his locker as he was unable to do this the last week of school.

In addition, please confirm by responding to this email before Monday (06/05/2023) that he is free to return to swim for practice that evening. Our Doctor had recommended swimming on a regular basis over 4 weeks ago. If anyone had informed us previously that there was a potential conflict we would have supplied a medical release earlier to participate in Pelagics.

Thank you.

Rick and Cassie Stefanik
